

MARGIN LINE

Keep all text and important graphics inside this line. This keeps it away from the away and looks nice, and also protects it from being cut off.

EDGE OF DOCUMENT

This is where the card will be cut. anything outside this line will be cut off, and anything too close will look bad or possibly be cut.

BLEED LINE

Any background, or graphics that go to the edge of the document should also extend to this line. This gives us extra color/graphic to help us cut correctly.

DOCUMENT SIZE: 3.5"

WIDE X 1.5" TALL

MARGINS: SET TO 0.125

BLEED: SET TO 0.125
